

# HTML and CSS Challenge 1

Using the mockup and wireframe below as a guide and the resources on Moodle, code this webpage.

The completed web page should include use of at least all the following:

	Check
html lang="en"	
meta viewport	
css classes (no id)	
Alt	
HTML comments	
Indented code for readability	
Use of %	
Use of max-width	
Use of em for font sizes	
Use of flex (no floats)	

No need for it to be fully responsive, but it should be partially responsive at least

Once complete:

- Zip folder
- Rename zip folder to YourNameChallenge1
- Upload to Moodle
